SELF-CHECK

5 signs you need a second income.

(Not a second job.)

Count how many fit you →

1

Your salary is gone before next payday.

Every month: "just make it to the 25th".

2

Your savings wouldn't last 3 months.

If income stopped tomorrow, how long could you cope?

3

One surprise bill means big stress.

Car repair. Clinic visit. Laptop breaks. Panic.

4

Your raise disappears into rising costs.

More income on paper. Same feeling every month.

5

You want to give more to your family, but can't.

Parents' allowance. Kids' education. A proper holiday. It all waits.
